***Election/Restriction***

I. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 10-16, 31-37 drawn to in a method for interactively providing a specialized learning curriculum over a computer network, classified in class 709, subclass 219.

II. Claims 17,38, drawn to a system for providing storing personal information If user is logged in, classified in class 709, subclass 228.

III. Claims 19, 40, drawn to a system for emailing content element to a friend, classified in class 709, subclass 206.

II. The inventions are distinct, each from the other because of the following reasons Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method for selecting number of content, invention II has separate utility such as a system for storing received personal information to a user profile associated with the user if it is determined that the user is logged in; invention III has separate utility such as a system for emailing content element to a friend; See MPEP. § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. During a telephone conversation with Jame R. Miner, attorney, on 3/3/05 to request an oral election to the above restriction requirement, but did not result in an election being made.
